Note dated 15-12-44 from the Assistant Comptroller, Local Audit Circle, Bangalore.

Besides the closing balance of Rs.33,334-7-6 as on 30-6-44 from which the K.G.F.Sanitary Board have agreed to pay a sum of Rs.33,333-5-4 for the improvement work, the Board have a surplus investment of Rs.30,000/- to fall back upon as working balance in case of need. Further it is ascertained that the Board will pay the above sum of Rs.33,333-5-4 in two instalments of Rs.16,666-10-8 each in the 1st and 2nd year of the progress of improvements as programmed. If that be so, the closing balance of Rs.16,667-12-10 together with an expected saving of about Rs.9.000/- in the provision of Rs.17,000 under B.Original works in the Budget for 1944-45 will leave enough working balance to constitute the requisite statutory minimum without even the need to draw upon the surplus investment.

Further as seen from the accounts for 1943-44 and the Budget Estimates for 44-45, the normal revenue and expenditure of the Board under Service Heads leave an annual surplus of about Rs.17,000 to Rs.20,000 which is expected also to improve by the revision of Mohatarfa Tax long overdue and the resumption of its collection from February 1945 through the Board Bread Agency instead of through the Revenue Department. Some of the improvement works when completed are also expected to bring in more revenue under Market collections and Mohatarfa, not to speak of the possibilities of securing still larger revenue by octroi and toll tax which are not now levied in the area. For some years during the programme of improvements and their completion the Board will have less need to incur normal expenditure on original works from their Budget. It is thus seen from the above that the Board can easily repay from their surplus annual revenue the annual instalment of Rs.10,000 with interest towards discharge of the loan of Rs.One lakh applied for. As the programme of improvement works is for 2 years, the loan may also be disbursed in two instalments of Rs.50,000/- each during the current and next official year.

17

The Government grant of Rs.2,00,000/- for the first year, the first instalment of loan viz., Rs.50,000/- and the first year's share of the Sanitary Board's initial contribution viz., Rs.16,666-10-8 may be constituted into a separate fund, from which the expenditure on improvement under the sanctioned scheme may be met and accounted for separately in the accounts of the Sanitary Board.

It is usual to require the Local Bodies to earmark some particular resources to guarantee the repayment of the loans asked for from Government. In this particular instance a few of the main sources of the Sanitary Board Revenue are indicated below:-

A. Local Cesses		Rs.21,500 P.A.
B. Assessed taxes mohatarfa and vehicle tax		33,500 ,,
D. 3 Market collections	45,000	
6 Slaughter house fees	12,000	57,000

25 percent of the market collections and slaughter house fees can be earmarked for repayment of the loan and the Board can easily remit a sum of about Rs.1000/- on account every month for credit to the loan account, the balance of the annual instalment and interest, if any left, being adjusted at the close of each year.

we can make this a first Charge on the Revenue
B
22/12

The loan may be sanctioned subject to the above conditions.

Final Note by the Minister for Local Self-Government and Public Health

Subject.— Proposal to sanction a loan of Rs.1 lakh at 4½% interest to the Kolar Gold Fields Sanitary Board for improvement works in the Sanitary Board area.

In connection with the improvement works to be carried out by the Kolar Gold Fields Sanitary Board, a grant of Rupees two lakhs has been provided in the State Budget, under "Town Improvement Grants" for the year 1944-45. Accordingly a programme of works which has to be carried out urgently in the Kolar Gold Fields Sanitary Board area was called for from the President of the Sanitary Board.

The Board have submitted a tentative programme of works, for two years, costing Rs.2,66,666-10-8, for each year. The total cost of the works is estimated at Rs.5,33,333-5-4. According to the present arrangement, the cost of the works will be borne by the Government and the Sanitary Board in the proportion of three to one. The Board's Share of the cost for the entire programme of works, works up to Rs.1,33,333 1/3. The Board is not in a position to finance fully the schemes included in the programme. They have therefore requested for the grant of a loan of Rupees one lakh from the Government, carrying interest at 4½% per annum and subject to repayment in ten annual instalments.

In view of the urgency, the provisional programme of works has been approved tentatively, after deleting the provision of Rs.50,000/- made therein for the shifting of the Epidemic Diseases Hospital. The Chief Engineer has also been requested, pending formal approval to the works, to post the necessary subordinate staff to facilitate the speedy execution of the works.

It is now proposed to sanction the programme of Improvement Works to be carried out in the area, and to grant to the Kolar Gold Fields Sanitary Board, a loan of one lakh of rupees, subject to the following conditions:-

1. the loan will carry interest at 4½% per annum, to which the board is agreeable.

2. the loan will be disbursed in two instalments of Rs.50,000/- each, during the current and next official years.

3. the loan is repayable in ten equal annual instalments or earlier at the option of the Board; the instalment and interest due being a first charge on the revenues of the Board.

4. the Board should ear-mark 25% of its revenue under "Market Collections and Slaughter House Fees" for repayment of the loan, so as to enable it to remit a sum of Rs.1,000/- ~~on account~~, every month, for credit to the loan account; the balance of the annual instalment and interest if any left, being adjusted at the close of each year.

OFFICE OF THE DEPUTY COMMISSIONER. 27
KOLAR DISTRICT

Dated, Kolar, the 7th May *194* 4.

Dear Sir,

I submit herewith, a note on the requirements of the Kolar Gold Fields Sanitary Board, for kind consideration, as desired.

With best regards,

Yours sincerely,

T Ramaiya

To
Pradhana Sirom ani
N. MADHAVA RAU, ESQ., B.A., B.L., C.I.E.,
Dewan of Mysore, (Camp) Ootacamund.

Office of the President, 28
K. G. F. Sanitary Board,
Dated, Champion Reefs, the 4th May 44.

A note on the requirements of the Kolar Gold Fields Sanitary Board.

The Kolar Gold Fields Sanitary Board has to administer a vast area of about 30 square miles, which includes the town areas of Robertsonpet, Andersonpet, Corgaum and 80 Villages. Though this is the third city in the State and has a population of 1,33,859 (according to the Census of 1941) its annual revenue works up to only about Rs.1,74,000/- on the average. The Board's revenues being for the most part inelastic, and its resources very limited, it finds itself unable to adequately meet the growing needs of this City, though the Board is fully alive to the necessity of paying immediate attention to certain urgent needs of the City. With the limited resources available, the Board has done its best ever since the date of its inception, to provide amenities such as street lights, water taps, public lavatories etc., to some of the labour colonies and other areas within its jurisdiction, to the extent possible, though what has been done in this direction has not been quite adequate. Due to inadequacy of funds and in view of the fact that the responsibilities of the Board are on the increase without a corresponding increase in their income, it has not been possible to provide for certain amenities which are urgently needed. Some of the essential requirements are detailed below:-

(1) Drainage Schemes.

In view of the pressing need for providing the several areas under the control of the Board with proper drainage facilities, the Sanitary Engineer furnished this office in the first instance with an estimate for Rs.2,19,290/- for laying under-ground drains in the Robertsonpet area. As the amount of the estimate was likely to be exceeded in view of the rise in prices of materials and as the Board felt themselves unable to provide for this heavy amount out of their normal resources, the matter had to be dropped. A separate estimate was therefore got up for laying surface drains in the area at a cost of Rs. 95,000/- and this has kindly been sanctioned by Government with an outright grant amounting to a moiety of the estimated cost. Though the areas of Andersonpet and Corgaum are also badly in need of drainage

facilities, it has not been possible to take up the question for want of funds.

It is learnt that estimates for Rs.95,000/- have been prepared for the Andersonpet area. For the Oorgaum area, we may require about Rs.45,000/- These two areas alone will cost about 1,40,000/- and though this is a very urgent amenity, it has not been possible even to think of this scheme in view of the Board's inability to find funds for the same.

(2) Shifting of the Epidemic Hospital:

The E.D. Hospital is at present situated in the midst of the most thickly populated area of the City and is a source of nuisance and danger to the health of the inhabitants of the locality. It is learnt that an estimate is under preparation in the P.W.D. for shifting the Hospital to a place away from the inhabited area. This may cost about Rs.40,000/- and the work is a very urgent one.

(3) Sanitary conveniences.

There are a number of colonies in the Sanitary Board area, which have not been provided with a sufficent number of public latrines and urinals. The construction of at least 12 public latrines and 18 urinals at an estimated cost of about Rs. 12,000/- is an immediate necessity in the interests of sanitation.

(4) Water supply and providing small roads in the interior parts.

There are several rural areas administered by the Board, which have a meagre income and which have to be provided with sufficient number of wells. There are a number of places where gravel roads and metalled roads have to be laid out. These items of works will cost about Rs.25,000/-.

(5) Bus Stands.

The City Bus service runs between Andersonpet and Robertsonpet. There is no proper bus stand at all in any of these places though the service buses running through K.G.F. to and from other places stop here for picking up passengers. Even for passengers, there is no shelter at present. The construction of two bus stands with two waiting sheds at least is a long-felt amenity and this has bee

30

~~and has been~~ pending for want of funds. The estimated cost works up roughly to Rs. 15,000/-

(6) Tarring of roads.

The Gifford road which is a little more than 2 miles in length and which links up the Champion Reefs with Robertsonpet gets out of order very frequently in view of the very heavy traffic and becomes very slushy during the rainy season. The need for tarring this road has been felt from a long time. The cost may work up to about Rs. 30,000/-.

(7) Tuberculosis Sanatorium.

This is an area where dust nuisance is very severe during summer due to the extremes of climate. The construction of a Tuberculosis Sanatorium for the treatment of patients suffering from Silicosis and Tuberculosis is a long-felt want. This may cost approximately Rs. 40,000/-

(8) Improvements to the Robertsonpet market.

(a) Government have been pleased to sanction an estimate for Rs. 41,270 for improving the frontage of the Robertsonpet Market (to be worked out in stages as funds permit) vide their Order No. L. 6472-75/ L. B. 74-41-2 dated 29th January 1942. This has been pending for want of funds.

(b) The rebuilding of the slaughter house with curing rooms, waiting sheds, providing refrigirator arrangements for the preservation of carcasses, etc., are estimated to cost roughly about Rs. 65,000/-.

(9) ~~—~~ Improvements to the Andersonpet market.

Provision was made for a market in this area several years ago at a time there was no idea that the area would develop, so quickly. The whole place presents an unsightly appearance and requires immediate improvements to make it deserve the name of a Municipal market. The improvements including the reconstruction of the Bullock slughter house may cost about Rs. 35,000/-.

(10). Slum clearance and rehousing.

(10) Slum Clearance and rehousing.

With the development of the area, certain portions of the City viz., the Kennedy shaft area etc., have become slummy and it is necessary to clear these slums and to provide the increasing population with housing accomodation so that the present slums may be cleared and the formation of fresh slums prevented. A sum of Rs. 15,000/- at least would be necessary to tackle some of the worst areas immediately.

The total cost of the improvements ennumerated above works up to Rs. 4,28,270/- approximately and the Board are unable to think of ways and means to finance these schemes, especially in this area which has its own special features. But all the same, as these are very urgent amenities which can no longer be put off, it is requested that Government may be pleased to sanction an outright grant of a like sum to enable the Board to discharge its obligations towards the inhabitants of this area.

President,
K. G. F. Sanitary Board.

SIR,

Re: Programme of urgent improvement works in K. G. F. area.

With reference to your letter No. L. 3453 of the 17th instant, stating that a loan of Rs. One Lakh would be sanctioned to the Board for meeting their share of cost of the improvement works if they are willing to pay interest at 4½ % of the Loan amount and calling for the opinion of the Board in this behalf, I have the honour to forward herewith, a copy of the Board's resolution No. 58 of the 20th instant, agreeing to pay the interest. I request that sanction may be kindly accorded for the grant of the loan subject to repayment in ten annual instalments or earlier at the option of the Board. Sanction may also be kindly accorded to the provisional programme of works already submitted to Government with this office letter dated 28th July 1944 and to appoint the Assistant Engineer and the staff referred to therein so that the work relating to the preparation of plans and estimates for the several items of work may be put in hand forthwith.

With a view to enable a separate set of accounts being maintained in respect of the receipts and expenditure relating to the schemes of improvement, the Board have resolved that a separate fund known as the " Kolar Gold Field Improvement Fund " be constituted, all items of receipts relating to the scheme, viz., Government grant, the Board's share of cost and other items of revenue that may be realised from some of the

P.T.O.

items of improvements forming part of the entire scheme, being credited to the fund. This will facilitate the correct preparation of the accounts relating to the scheme and prevent the amounts of receipts and expenditure pertaining to this being mixed up with the normal revenues of the Board. I therefore request kind approval of Government to the Board's resolution as above at an early date. A separate account will be opened in the Oorgaum branch of the Bank of Mysore Ltd., in the name of the President, on receipt of orders of Government. A copy of the Board's resolution in this behalf is also enclosed for reference.

SIR,

Re: temporary establishment relating to the schemes of improvement in K. G. F. area.

With reference to your letter No. L. 7609 of the 30th ultimo forwarding copy of the letter addressed to Government by the Chief Engineer for Irrigation on the above subject and enquiring whether an Assistant Engineer on Rs. 200-40/2-400 and a Surveyor on Rs. 60-5-125-10-175 plus 15 C. A. may be posted to the Kolar Gold Field Sanitary Board against the two similar posts on fixed pay sanctioned in Government Order No. L. 5447-L.B. 33-44-15 dated 5th December 1944, I have the honour to state that I have no objection to the proposal to post an Assistant Engineer on his grade pay in the Department, to the Sanitary Board. So far as the post of the Surveyor is concerned, I may add that the idea of the Board is to have one more Sub-Overseer in addition to the existing permanent Sub-Overseer (Work Inspector) so that both of them might assist the Assistant Engineer. Hence, a grade pay of Rs. 35-5/2-80 plus 10 C. A. has been suggested for this post in this office letter dated 24th January 1945 and this is enough. I request that sanction may kindly be accorded for posting an Assistant Engineer and a Sub-Overseer on their grade pay in the P. W. D. With regard to the Draftsman and two Clerks, kind reference is invited to this office letter of even No. dated 24-1-1945 in the matter.

51

Pending formal orders of Government sanctioning the alterations in the scales of pay, I request that the Chief Engineer may be kindly instructed to post the Officer and staff forthwith, so that necessary further action may be taken in respect of the first stage of the works of improvement immediately, as more than seven months have already expired during the current official year.

A formal resolution of the Board agreeing to the alterations in the scales of pay referred to supra will be obtained at their next meeting to be held on the 16th instant and submitted to Government.

I have the honour to be,
Sir,
your most obedient servant,

Sanitary Board, stating that the Board have no objection to the posting of an Assistant Engineer on Rs.200-40/2-400 and a Suboverseer on Rs.35-5/2-80 plus Rs.10 C.A. per mensem, in lieu of fixed pay sanctioned for these posts.

ORDER NO:-L 92768/LB.33-44-19
.BANGALORE, DATED 16.3.1945

A provision of two lakhs of rupees has been made in the State Budget for the year 1944-45, for

for Improvement Works in the K.G.F. Sanitary Board and the Board were requested to forward a programme of ~~such~~ works to be taken up in the area.

2. The Board have accordingly submitted a programme of works to be executed in two years, costing Rs.2,66,667/- for each year or Rs.5,33,334/- for two years. The expenditure in question is proposed to be met by the Government and the Board in the proportion of three to one. The Board have agreed to pay a sum of Rs.33,334/- only for the present out of the closing balance of the Board towards their share of cost. As they are not in a position to finance the balance, ~~of their share of cost immediately~~, they have requested for the grant of a loan of Rs.one lakh from the Government, carrying interest at 4½% per annum, and subject to repayment in ten annual instalments.

3. After a careful consideration of the proposals, Government are pleased to approve the programme of works, as appended to this order, with the modification that the provision of Rs.50,000/- made therein for the shifting of the Epidemic Diseases Hospital be deleted. Priority should be given to the several works in the order of urgency. The Government share of the cost of the above works amounts to Rs.3,62,500/- and out of this, a sum of Rs.two lakhs will be met during the current year out of the provision made therefor in the State Budget. Provision for the balance will be made in the State Budget for 1945-46.

4. In order to enable the Board to bear their share of the cost, sanction is accorded to the grant of a loan of Rs.one lakh to the K.G.F. Sanitary Board subject to the following conditions:-

i) the loan will carry interest at 4½% per annum,

ii) the loan will be disbursed in two instalments of Rs.50,000/- each during the current and next official years,

iii) and the loan is repayable in ten equal annual instalments, the instalment and interest due being a first charge on the revenues of the Board.

5. The Board should earmark 25% of its revenues under "Market Collections and Slaughter House Fees", for the repayment of the loan, so as to enable them to remit a sum of Rs.1,000/- every month, for credit to the loan account; the balance of the annual instalment and interest, if any left being adjusted at the close of each year.

Re: Shifting of the E. D. Hospital of Robertsonpet.

1442

With reference to your Memo No. L. 12645 of the 30th ultimo forwarding a copy of letter No. M. 11348/ Med. dated 19th June 1945 addressed to the Senior Surgeon by the Secretary-to-Government, Education Department, on the subject referred to above, I have the honour to invite your kind reference to paragraph 2 of your letter No. L. 5447/ L. B. 33-14-15 dated 5th December 1944 communicating orders of Government to the effect that the sites formed on the land where the E. D. Hospital is now located may be disposed of by auction. Accordingly, action will be taken to dispose of the sites in public auction after the Hospital is shifted from its present place. As regards the Board's contribution towards the cost of constructing the new building, I may add that the Senior Surgeon has written to say that the receipt of the plans from the Government Architect is awaited. After ascertaining the estimated cost of the new building from the Senior Surgeon, the subject will be placed before the Board and their views submitted to Government for orders.

I have the honour to be,
Sir,
your most obedient servant,

for PRESIDENT.
